# SRI RAM CHARAN NALLA

+91 7989101146 ◇ Chinamiram, Bhimavaram
nvsk72@gmail.com ◇ linkedin.com/in/nsrcharan ◇ github.com/Charan512 ◇ nsrcharan.vercel.app

## EDUCATION

**Sagi Rama Krishnam Raju (SRKR) Engineering College**, B.Tech 2023 – 2027
- Artificial Intelligence and Machine Learning, CGPA: **8.71**

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, Python, Java, C, HTML, CSS, Dart
**Frontend Development:** React.js, Next.js, Vite, Tailwind CSS, Framer Motion, Responsive UI, Flutter
**Backend Development:** Node.js, Express.js, FastAPI, REST APIs, JWT Authentication, Role-Based Access Control
**Databases:** MongoDB, PostgreSQL, MySQL, Firebase Authentication
**Tools & Platforms:** Git, GitHub, Android Studio, Vercel, Render, Firebase, MS Power BI, Google SEO
**Core CS:** Data Structures & Algorithms, OOP, API Design, Database Design, **250**+ DSA Problems Solved
**Certifications:** IBM Deep Learning Fundamentals, Google AI-ML virtual Internship, Cisco Python Essentials 1 & 2

## PROJECTS

**Herb Species Detection API** Charan512/HerbDetectionModel | nsrc-ayusethuml.hf.space Oct 2025 – Jan 2026
Developed a scalable FastAPI inference engine to classify 92 herb species from images; engineered a hybrid pipeline combining EfficientNetV2B3 feature extraction, PCA dimensionality reduction, and SVM classification to achieve **96.6% accuracy**.

**Talent Radar AI Agent** github.com/Charan512/TalentHunt | talent-hunt-sigma.vercel.app May 2026 – May 2026
Architected an autonomous recruitment engine using FastAPI, Next.js, ChromaDB, and a **5-agent** LLM pipeline to convert job descriptions into ranked shortlists; implemented semantic search, simulated interviews, SSE streaming, and automated fallback routing.

**Soul Connect** github.com/Charan512/SoulConnect | soul-connect-one.vercel.app Jan 2026 – Mar 2026
Engineered a safety-focused AI mental health assistant with FastAPI, React, and MongoDB; integrated STT/TTS pipelines for voice-enabled interaction and utilized sentiment analysis with fuzzy-logic urgency scoring to trigger Twilio-based emergency alerts and LLM-driven support responses.

## EXPERIENCE

**AI Intern**, Stikbook Inc. **Remote** May 2026 – July 2026
- Automated end-to-end data collection and processing workflows using n8n, significantly reducing manual overhead and streamlining pipeline efficiency.
- Wrote scalable data acquisition scripts to aggregate, preprocess, and clean diverse datasets, preparing robust data structures for downstream consumption.
- Architected and evaluated diverse predictive baselines, writing modular Python code to train and test both classical machine learning and neural network architectures.

**Python Developer & Project Lead**, NDV TechSys Solutions. **Remote** July 2026 – present
- Led development of **SEO GrowthOS**, a B2B SaaS platform for SEO agencies, building backend services with **Python, FastAPI, and PostgreSQL** for visibility tracking and competitor analysis.
- Engineered hybrid **agentic SEO analysis pipelines** integrating deterministic analysis, DataForSEO, Google Search Console, and LLM APIs to automate technical audits, keyword research, competitor insights, and content strategies.
- Architected multi-tenant **RBAC workflows** and asynchronous processing using Celery and Redis, while leading project development across backend services, integrations, and automated SEO report generation.

## ACHIEVEMENTS

- **Runner-up, Smart India Hackathon 2025** – Ranked in the Top 5 nationally by engineering a highly scalable software solution for a Herb Traceability problem issued by the Ministry of Ayush, Government of India.
- **2nd Place, Catalyst Solo Hackathon** – Outperformed 500+ developers in the Deccan AI Experts competition by architecting Talent Radar, an autonomous multi-agent AI recruitment engine, within 48 hours.
- **1st Place Winner, Text Sprouts (E-Summit 2K26)** – Secured 1st place at a National-Level Project Expo for developing an end-to-end supply chain management solution.

## EXTRA-CURRICULAR ACTIVITIES

**Tech Lead, Association for Computing Machinery (ACM), SRKREC** – Led the technical execution of **Prajwalan 2K26**, a national-level hackathon, by developing **prajwalan-2k26.tech**, a custom platform supporting **550**+ **live participants**; organized and delivered the **ML-Xplore** workshop as a resource person.
